About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Other Important Health and Safety Information.

The Xbox Instruction Manual contains important safety and health information that you should read and understand before using this software

Avoid Damage to Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played safely on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

USING THE XBOX VIDEO GAME SYSTEM

Thank you for purchasing SEGA SOCCER SLAM. Please note that this software is designed only for use with the Xbox™ video game system from Microsoft. Be sure to read this instruction manual thoroughly before you start playing.

1. Set up your Xbox video game system by following the instructions in the Xbox Instruction Manual.
2. Press the power button and the status indicator light will light up.
3. Press the eject button and the disc tray will open.
4. Place the SEGA SOCCER SLAM disc on the disc tray with the label facing up and close the disc tray.
5. Follow on-screen instructions and refer to this manual for more information about playing SEGA SOCCER SLAM.

Avoiding Damage to Discs or the Disc Drive

To avoid damage to discs or the disc drive:

- Insert only Xbox compatible discs into the disc drive.
- Never use oddly shaped discs, such as star-shaped or heart-shaped discs.
- Do not leave a disc in the Xbox console for extended periods when not in use.
- Do not move the Xbox console while the power is on and a disc is inserted.
- Do not apply labels, stickers, or other foreign objects to discs.

About Backup

The backup files for this game can only be saved on the Xbox hard disk. Never turn off the Xbox console while saving files.

Note: This game does not support the Xbox Memory Unit (sold separately).

USING THE XBOX CONTROLLER

1. Insert the Xbox Controller into controller port 1 of the Xbox console.
2. Insert any peripherals (for example, Xbox Memory Units) into controller expansion slots as appropriate.
3. Follow on-screen instructions and refer to this manual for more information about using the Xbox Controller to play SEGA SOCCER SLAM.

SHOWBOAT SCREEN

Once you're up and running, the *Sega Soccer Slam* intro begins, followed by the *Sega Soccer Slam* title screen, or what we like to call the Showboat screen. The players parade onto the screen one-by-one, giving you your first taste of what's in store.

- To go directly to the Main Menu, press **START**, see *Main Menu* on p.5.
- If you do not take an action, a brief game demo begins after one character from each team struts his or her stuff.

Advanced Moves

To learn how to perform advanced ball handling moves such as one-timer passes and shots, Killer Kicks, and Spotlight Shots, see *On The Field* on p.10.

MAIN MENU

As your launch pad into the scrum, the Main menu offers access to all five *Sega Soccer Slam* game modes as well as team bios and game options.

ARCADE

Arcade mode consists of four "sub-modes." Choose **Quick Start** for the fastest way to get onto the field. See *Quick Start* on p.6.

Exhibition offers a single-game match with full control over all setup decisions and options. See *Playing An Exhibition Game* on p.7. For 1 – 4 player mini-game mayhem, select **Hot Potato** or **Brawl**. See Mini-games on p.8.

To choose a menu item, press the **left thumbstick**  to highlight it, then press the **A** button to select.

QUEST

Go for the Continental Cup! Compete in a multi-round quest for *Sega Soccer Slam* glory. Along the way, you'll earn prize money, purchase super gear, compile comprehensive stats, and more. See *Battling Through Quest Mode* on p.16.

CHALLENGE

Create custom teams and compete in a series of matches to unlock secret characters. See *Taking On The Challenge* p.19.

TOURNEY

Enter a round-robin tournament in which each *Sega Soccer Slam* team takes on every other team once, vying for the Tourney Championship. You can control up to all six teams and take part in all 15 games! See *Competing In A Tourney* on p.20.

PRACTICE

Perfect 16 moves, from the fundamentals to the most advanced, on the practice field without the burden of a high-pressure opponent. See *Hitting The Practice Field* on p.23.

TEAM BIOS

Study the background and skill levels of each team and every player. See *Team Bios* on p.24.

OPTIONS

Customize the game, manage your Game Data, and view credits. See *Options Menu* on p.25.

ARCADE MODE

QUICK START

Quick Start mode is the fastest way to get onto the field, but what you gain in speed, you give up in free will. The teams, venue, and weather conditions are randomly selected.

To begin a Quick Start game:

1. Select **Quick Start** from the Arcade mode menu or from the Main menu, highlight **Arcade**, pull and hold both the **left trigger** and **right trigger**. The Quick Start option appears.
2. Continue to hold the **left trigger** and **right trigger** and press the **A** button. The Choose Sides screen appears displaying the two randomly selected teams' logos.
3. Press the **left thumbstick** to move your Controller icon to the team you wish to control during the game.
 - To assign a name to your controller, press the **X** button. When the Enter Name pop-up appears, press the **left thumbstick** to change letters, to advance to the next characters, and press the **A** button to accept.
4. Press the **A** button to select. The game begins. See *On The Field* on p.10.

ARCADE MODE

PLAYING AN EXHIBITION GAME

An Exhibition game is your basic mano-a-mano, no-holds-barred battle for *Sega Soccer Slam* bragging rights. Call out your best friend, your worst enemy, or a computer-controlled opponent for a test of skills on the field.

- To begin an Exhibition game, from the Arcade Menu, choose EXHIBITION. The Choose Sides screen appears.

CHOOSING SIDES

At the Choose Sides screen, you have the option of controlling the Home or Away team. An icon for each Controller connected to your Xbox appears on the screen in the middle of the field. The Home team takes the first kickoff.

To choose a side:

1. Press the **left thumbstick** to move your icon to the side you wish to control during the match.
 - To assign a name to your Controller, press the **X** button. When the Enter Name pop-up appears, press the **left thumbstick** to change letters, to advance to the next characters, and press the **A** button to accept.
2. Press the **A** button to select. The Choose Teams screen appears.

Note: If you leave all Controller icons in the center of the screen, the game is played in Demo mode, which means all players are computer controlled.

CHOOSING TEAMS

Select the team you wish to control in the upcoming match. You can compare all six teams in five skill categories.

To choose a team:

1. Press the **left thumbstick** to highlight the team you wish to control during the match.
 - To lock your Controller onto a single player, rather than your entire team, press the **X** button. When the pop-up appears, press the **left thumbstick** then to the player you wish to control, then press the **A** button to accept.
2. Press the **A** button to select. If a Controller is assigned to the other side, your opponent chooses his/her team next. If not, you have the option of choosing the opposing team.
3. When both teams are chosen, the Venue Select screen appears.

ARCADE MODE

SELECTING THE VENUE

Sega Soccer Slam features nine unique, international venues (only three are available from the beginning) including a home field for each team and three neutral arenas. Select your favorite venue and set the weather conditions: clear, fog, rain, or snow.

To select a venue:

1. Press the **left thumbstick** $\leftarrow \rightarrow$ to highlight the venue in which you wish to play the upcoming match.
2. Press the **left thumbstick** $\uparrow \downarrow$ to cycle through weather options.
3. Press the **A** button to select. When the option screen appears, press the **left thumbstick** $\uparrow \downarrow$ to select an option and $\leftarrow \rightarrow$ to adjust. When all options are set, press the **A** button to start. The game loads (see *On The Field* on p.10).

MINI-GAMES

Select **Hot Potato** or **Brawl** for exciting 1 – 4 player mini-game action. Participants can choose any of the available *Sega Soccer Slam* characters to find out who is king of the roost.

Hot Potato:

1. Use the **left thumbstick** to highlight a character and press the **A** button to select.
2. When the mini-game options screen appears, press the **left thumbstick** $\uparrow \downarrow$ to select an option and $\leftarrow \rightarrow$ to adjust. When all options are set, press the **A** button to start.

Object:

Maintain control of the ball to accumulate your bonus. You can protect or "bank" your bonus by passing ball. When another player is in possession of the ball utilize the "hit," or "steal" moves to acquire the ball. If you successfully steal the ball from an opponent, their bonus is multiplied by 1.5 and transferred to you. Don't hang onto the ball too long, when time expires the ball will blow up and anyone within its blast radius will lose points. The player with the most points at the end of the final round will be the victor.

ARCADE MODE

Brawl:

1. Use the **left thumbstick** to highlight a character and press the **A** button to select.
2. When the mini-game options screen appears, press the **left thumbstick** $\uparrow \downarrow$ to select an option and $\leftarrow \rightarrow$ to adjust. When all options are set, press the **A** button to start.

Object:

Hammer your opponents until they are out of hit points. Holding down the hit button causes the power meter to appear. Release the hit button when the meter reaches its highest point to deliver strong attacks. Make sure you pick up the "power-up" icons (when they appear) to gain an advantage when battling with your opponents. Do you have what it takes to be the last person standing?

ON THE FIELD

The game opens with a fly-by of the stadium as the announcer sets up the match and the players take the field and line up for the opening kickoff. The centers for each team talk a little trash, setting the tone for the ensuing mayhem.

- Kickoffs can be initiated by pressing the Pass button and aiming to a teammate, but will be automatic if too much time is taken.

Note: The controls described in this section are the defaults. For information on alternate and custom configurations, see *Options Menu* on p.25.

CONTROLLING THE BALL ON OFFENSE

- To **dribble** the ball, press the **left thumbstick** in any direction.
- For a **turbo boost**, hold the **right trigger** while dribbling.
- To **pass** the ball to a teammate, press the **left thumbstick** in the direction of the player, then tap the **A** button.
- For a **lob pass**, hold the **A** button. This lifts the ball in the air to clear opposing players, setting up headers and high shots.
- To execute a **one-timer pass**, send a pass to your teammate, then release and press the **A** button again as the pass is on route. Your teammate will pass the ball as soon as he/she receives it.
- To **deke** an opponent who is attempting a steal, press the **B** button. The ball handler pops up the ball and hops into the air.
- To **protect** the ball and yourself from a hit, press the **Y** button. The ball handler spins out of danger while maintaining control of the ball.
- To **shoot** on goal, tap the **X** button while aiming for a corner of the net with the **left thumbstick**.
- For a **power shot**, hold the **X** button and let the Shot Meter fill before releasing.
- To fire off a **one-timer shot**, send a pass to your teammate, then press and release the **X** button while the pass is on its way. Your teammate launches a quick shot as soon as he/she receives the ball.

Shot Meter

The higher the Shot Meter when you release the B Button, the more powerful your shot.

ON THE FIELD

Make every shot a one-timer shot. The redirection gets the goalie out of position, increasing your chance at a goal, and the move combo increases your Power Point value. It's a win-win situation.

PLAYING WITHOUT THE BALL ON OFFENSE OR DEFENSE

- To **run**, press the **left thumbstick** in any direction.
- For a **turbo boost**, hold the **right trigger** while running.
- To **switch control** to the player closest to the ball, press the **A** button. (Unless your Controller is locked onto a specific player.)
- To **hit** an opposing player, run up to him/her and press the **X** button. The force of a solid hit can knock the ball handler off the ball.

Don't forget to hit the goaltender if he has held onto the ball for more than 5 seconds.

- To attempt to **steal** the ball, run up to the ball handler and press the **B** button. Your player goes down for the slide tackle.
- To **protect** yourself from an oncoming hit, press the **Y** button. Timed correctly, you'll spin out of harms way.

GOALKEEPER CONTROLS

Note: In order to control the goalkeeper before a save, you must set Goalie Control ON in the Options Menu (see *Options Menu* on p.25).

- To **gain control** of the goalie before a save, press the **A** button and hold it for one second.
- To **move** the goalie into position for a save, press the **left thumbstick** in any direction. If you get into position, the save is automatic.
- To **dive** after a loose ball, press the **B** button.
- To **throw or roll** the ball to a teammate after a save, press the **left thumbstick** in the direction of the teammate, then press the **A** button.
- To **kick** the ball out of your end of the field, press the **left thumbstick** to aim, then press the **X** button.

ON THE FIELD

POWER METER

The Power Meter is the heart and soul of *Sega Soccer Slam*. Learn to master it, and you will control your destiny on the field. When you generate enough Power Points to completely fill the meter you'll have enough power to attempt a Killer Kick – the most devastating move in the game!

Power Points

Just about every move on offense is worth a fixed number of Power Points. By simply playing the game, you will slowly fill up your meter.

Move	Pass	Shot	Protect	Deke	Hit	Steal
Power Points	10	10	15	20	20	20

To fill up your meter more quickly, chain together different moves for maximum points.

As long as you perform successive moves within three seconds of each other, you can string four moves into one combination, which will be tallied at the end of the combo, and each different move adds a 2x multiplier to the total.

Examples: Steal (20) + Pass (10) + Shot (10) = $40 \times 6 = 240$ Power Points.

Steal (20) + Deke (20) + Protect (15) + Shot (10) = $65 \times 8 = 520$ Power Points.

Power Ups

Any time you have power in your Power Meter, you can Power Up the player you are controlling. Each team has its own signature power source, but the effect is the same: players become stronger and faster and better shooters.

- To Power Up a player, pull the **left trigger**. The Power Up continues until you release the **left trigger** or the Power Meter runs out, whichever comes first.

ON THE FIELD

When Power Meter is filled, you can perform a Killer Kick.

Power Meter lights up as you score Power Points.

KILLER KICKS

When your Power Meter is completely full, it flashes KILLER KICK! to indicate that you now have this overpowering shot in your arsenal. The more Killer Kicks you can manage in a game, the better your chance of destroying the competition.

To take a Killer Kick:

1. Hold the **right trigger** and the **A** button at the same time. The ball is lobbed high into the air, a green circle appears on the field beneath it, and you take control of the pass recipient.
2. Move your player into the circle and press the **X** button once the green cone of light appears. (Half of your power points are used to initiate Step 1 and the remaining half are used to initiate Step 2.)
3. Before your player connects with the ball, press the **left thumbstick** toward a corner of the goal to aim the shot. When the player connects, he or she sends an explosive shot toward the net.

If you're saving up for a Killer Kick, lay off the Power Up moves. It is very difficult to fill up the Power Meter when you continue to use it up bit-by-bit.

ON THE FIELD

SPOTLIGHT SHOTS

Every once in a while when you're on offense in your opponent's half of the field, a spotlight image of your team's logo flashes across the field. Get the ball handler into the spotlight and take a shot for a powerful kick that rivals a Killer Kick.

Get the ball handler in the spotlight, then hit the shoot button for a blistering shot.

To take a Spotlight Shot:

1. Move the ball handler into the spotlight and press the **X** button. The player jumps into the air and takes a slow-motion swing at the ball.
2. Before your player connects with the ball, press the **left thumbstick** toward a corner of the goal to aim the shot. When the player connects, he or she sends a blistering shot toward the net.

The defenders are just as aware of the spotlight as you are, so they make it very difficult for you to run into it. You'll have more success if you pass to a teammate who's closer than you to the spotlight.

PAUSE MENU

You can pause the game by pressing the **START** button at any time to access the Pause menu or just take a break from the action. The following options are available from the Pause menu.

- To choose a menu item, press the **left thumbstick** to highlight it, then press the **A** button to select. The appropriate screen appears.

Resume Game

Return to the action. The game resumes from the exact point at which you left off.

ON THE FIELD

Camera Settings

Revisit the camera settings you selected at the Options menu before the game. See *Camera Settings* on p.26.

- To save changes and return to the Pause menu, press the **A** button.

Assign Controllers

Reassign your Controller to either team or lock onto any player.

- To assign your Controller to a team, press the **left thumbstick** to that team's logo, then press the **A** button to select and return to the Pause menu.
- To lock your Controller onto a player, press the **left thumbstick** to that player's head, then press the **A** button to select and return to the Pause menu.

Match Stats

Check out up to the moment game stats for each team in nine key categories.

- To return to the Pause menu, press the **A** button.

Quit Game

Forfeit the current game and return to the Main menu. When you choose QUIT GAME, a pop-up appears prompting you to confirm your decision.

- To confirm, press the **A** button. The Main menu appears.
- To cancel, press the **B** button. The Pause menu appears.

HALFTIME/END OF THE GAME

At the end of the first half, play stops and the teams exchange sides of the field to line up for the second half kickoff. The Away team takes the kickoff to begin the second half.

The end of the second half is the end of the game. The winning team celebrates, the losers sulk, and the Match Summary screen appears displaying final stats.

- To exit the Match Summary screen, press the **A** button.
- If the game ends in a tie, play continues with a Sudden Death overtime period. The first team to score wins the match.

Note: If necessary, multiple Sudden Death periods are played until a team scores.

BATTLING THROUGH QUEST MODE

Quest mode is a three-tier, 12-game contest for the Continental Cup, complete with an All-Star break. Along the way, you win prize money for every victory your team scores, which you can use to buy performance-enhancing gear and other surprises. Also, after the first four games, you will be given the chance to compete in a variety of mini-games to earn more money.

ROUND ONE

Round One consists of five games, in which you play one match against every other team in the Quest. The order of the games is predetermined. Victories in Round One are worth \$100. A mini-game will appear after each game up until the All-Star break.

ALL-STAR BREAK

Following Round One, one player from each team is invited to participate in the All-Star game. The All-Star game doesn't affect your team's record, but if you win, it's worth \$500 to your Quest bankroll.

ROUND TWO

Round Two is similar to Round One except that all five matches are set and you choose which team you want to play next. You must be ranked in the top-four at the end of Round Two in order to move on to the Semi Finals. Each Round Two win increases in value by \$100 (\$100, 200, etc.).

SEMI FINALS AND FINAL ROUND

The Semi Final is a single-elimination game. If you win, you pocket \$1,000 and go on to the Final Round. If you lose, you go home.

Winning the Final Round awards your team the Continental Cup, \$1,500 and unlocks a secret *Sega Soccer Slam* venue.

To begin a Quest:

1. From the Main menu, choose QUEST. The Continental Cup screen appears.
2. Read up on the Quest mode game flow, then press the **A** button. The Choose Team screen appears.

BATTLING THROUGH QUEST MODE

CHOOSING A TEAM

Select the team you wish to control throughout your Quest. You can compare all six teams in five skill categories.

- To choose a team, press the **left thumbstick** to highlight the team you want, then press the **A** button to select. The Quest Manager screen appears.

QUEST MANAGER

The Quest Manager is where you keep track of your Quest for the Continental Cup. From this screen, you can spend your earnings at the Soccer Shop, check your team's stats and ranking in the Stats Center, and select your next match.

- To select an option from the Quest Manager, press the **left thumbstick** , then press the **A** button to select. The appropriate screen appears.

Soccer Shop

The Soccer Shop offers 15 items, which you can purchase for your team. Each product features a description and purchase price. Your current balance is shown in the upper-right of the screen.

- To make a purchase, use the **left thumbstick** to highlight the product you wish to buy, then press the **A** button. The price is subtracted from your balance.
- To exit the Soccer Shop, press the **B** button.
- Performance-enhancing gear you purchase for your team is available to the players in all *Sega Soccer Slam* game modes.

BATTLING THROUGH QUEST MODE

Stats Center

The Stats Center features individual stats pages for teams, star players, and the members of your team.

Team Stats displays win/loss records, goals for/against, and other stats, which are used to calculate team rankings. Only the top-four ranked teams will go on to the Quest Semi-Finals.

All-Star Stats follows each team's number-one player and ranks that character against the other top players in the league.

Character Stats shows how your players compare in twenty-three skill categories. Your top-ranked player represents your team on the All-Star Stats screen.

- To cycle through the three stats screens, press the **A** button.
- To exit the Stats Center, press the **B** button.

Next Match

Depending upon which round you're in, you can either choose the next match you want to play, or simply accept the only one available.

To begin your next match:

1. Use the **left thumbstick** to highlight the match you wish to play.
2. Press the **A** button to select. The Join Side pop-up appears.
 - To control your entire team, use the **left thumbstick** to move your Controller icon to your team's logo.
 - To lock control onto one player on your team, use the **left thumbstick** to move your Controller icon to that player's face.
3. When your Controller icon is set, press the **A** button to select. The game loads (see *On The Field* on p.10).

TAKING ON THE CHALLENGE

CHALLENGE MODE

Create custom teams and compete head-to-head with up to four players. Winning the series of four matches will unlock secret characters!

Choosing Sides

At the Choose Sides Screen, you and up to three other players have the option of controlling the Home or Away team. An icon for each Controller connected to your Xbox appears on the screen in the middle of the field. The Home team takes the first kickoff.

1. To choose a side, press the **left thumbstick** to move your icon to the side you wish to control during the match.
 - To assign a name to your Controller, press the **X** button. When the Enter Name pop-up appears, press the left thumbstick to change letters, to advance to the next characters, and press the **A** button to accept.
2. Press the **A** button to select. The Choose Characters screen appears.

Creating A Team:

1. Use the **left thumbstick** to highlight a character and press the **A** button to select. You must choose three characters to complete your team.
2. Press the **left thumbstick** and press the **A** button to select a team you would like to represent.
3. When the Challenge options screen appears, press the **left thumbstick** to select an option and to adjust. When all options are set, press the **A** button to start.

COMPETING IN A TOURNAMENT

Create and compete in your own five-day round robin *Sega Soccer Slam* tournament. Choose the teams and take part in up to 15 games throughout the event.

Throughout the Tourney, team rankings are updated based upon their records and amount of goals scored for/against. The team ranked #1 following the fifth day of competition is awarded the Tourney Championship.

To begin a Tourney:

1. From the Main menu, choose TOURNEY. The Tourney Cup screen appears.
2. Read up on the Tourney mode game flow, then press the **A** button. The registered names pop-up appears.

CHOOSING A TEAM

In Tourney mode, you can choose one team to represent all the way through the event, assign teams to your friends to create a multiplayer Tourney, or assign up to six teams to yourself and take part in all 15 games.

To rename a team:

1. Press the **left thumbstick** $\blacktriangle\blacktriangledown$ to highlight the team you wish to rename.
2. Press the **A** button to select.
3. The Enter Team Name Screen appears.
 - Press the **left thumbstick** $\blacktriangle\blacktriangledown$ to change letters, \blacktriangleright to advance to the next characters, and press the **A** button to accept.
4. If you wish to rename another team, repeat steps 1-3.
5. If you do not wish to rename another team, select DONE, press the **A** button, and the Match Schedule Screen will appear.

COMPETING IN A TOURNAMENT

MATCH SCHEDULE

The Match Schedule screen displays the set schedules for each of the five days of the Tourney. During a Tourney, you can page forward to view upcoming matches or page back to review past scores. Additionally, the Stats tab compiles stats and rankings for teams and top players.

When a match is selected, a pop-up appears asking if you want to play or simulate the game.

Today's match-ups

To begin your next match:

- Press the **left thumbstick** $\blacktriangle\blacktriangledown$ to choose the match you wish to play next, then press the **A** button to select. A pop-up appears asking if you want to play or simulate the game. Select PLAY and press the **A** button to advance to the Choose Sides Screen."

CHOOSING SIDES

At the Choose Sides screen, you can choose any side.

To choose a side:

1. Press the **left thumbstick** $\blacktriangle\blacktriangledown$ to move your icon to the side you wish to control during the match.
 - To assign a name to your Controller, press the **X** Button. When the Enter Name pop-up appears, press the **left thumbstick** $\blacktriangle\blacktriangledown$ to change letters, \blacktriangleright to advance to the next characters, and press the **A** button to accept.
2. Press the **A** button to select. The Venue Select screen appears.

COMPETING IN A TOURNAMENT

SELECTING THE VENUE

Sega Soccer Slam features nine unique, international venues including a home field for each team and three neutral arenas (only three are available at the beginning). Select your favorite venue and set the weather conditions: clear, fog, rain, or snow.

To select a venue:

1. Press the **left thumbstick** $\leftarrow \rightarrow$ to highlight the venue in which you wish to play the upcoming match.
2. Press the **left thumbstick** $\uparrow \downarrow$ to cycle through weather options.
3. Press the **A** button to select. When the option screen appears, press the **left thumbstick** $\uparrow \downarrow$ to select an option and $\leftarrow \rightarrow$ to adjust. When all options are set, press the **A** button to start. The game loads (see *On The Field* on p.10).

HITTING THE PRACTICE FIELD

Taking part in Practice sessions is a great way to master the skills necessary to win in *Sega Soccer Slam*. All the moves are here without all the pressure so take the time you need to become a superstar.

- To begin a Practice session, from the Main menu, choose PRACTICE. The Practice screen appears.

PRACTICE SCREEN

At the Practice screen, you choose the skill you want to begin practicing. Practice options start with basic passing and become progressively more advanced, ending up with Killer Kicks.

- To choose a Practice option, press the **left thumbstick** $\leftarrow \rightarrow$ to the skill you wish to begin with, then press the **A** button to select. The Practice field loads.

RUNNING DRILLS

On the Practice field, a general explanation of how to perform the move appears on the screen. When you think you understand how to execute, begin the drill.

To run a Practice drill:

1. After reading the explanation, press the **A** button to continue. Players take their positions on the field, and you have 30 seconds in which to complete the drill.
2. Complete the drill to the best of your ability.
 - If you are successful, you are prompted to Try Again or move on to the Next Event. press the **left thumbstick** $\uparrow \downarrow$ to highlight your choice, then press the **A** button to select.
 - If you fail, you are returned to the move's explanation. Make sure you understand how to perform the move, and then give it another go.
3. Move on to the Next Event and repeat the steps above. In order to exit Practice mode, you must successfully run through to the final drill.

TEAM BIOS

The Team Bios screen gives you background information on each *Sega Soccer Slam* team and the players that make up their rosters. This section also displays team and player rating bars, which measure strength in five categories. The further a rating bar is filled, the more skill a team or player has in that category.

At the Team Bios screen:

- To choose a team to study, press the **left thumbstick** $\leftarrow \rightarrow$ to highlight it.
- To read the entire bio, press the **left thumbstick** $\uparrow \downarrow$ to scroll the text.
- To view individual player bios, press the **A** button.
- To choose a different player to study, press the **left thumbstick** $\leftarrow \rightarrow$.
- To exit the Player Bio or return to the Main menu, press the **B** button.

OPTIONS MENU

The Options menu provides access to several tools you can use to customize *Sega Soccer Slam* to your personal preferences. The default options appear below in **bold**.

- To choose an Options menu item, press the **left thumbstick** $\uparrow \downarrow$ to highlight it, then press the **A** button to select. The appropriate screen appears.
